13. febrúar 2013

1. (a) FCFS:
   (b) SJF:
   (c) SRTF:
   (d) RR:
   (e) RR_{prio}:

2. As processes are created by running processes, and there is only one process running at each time, there can only one process be created at each time. Thus, only once process can arrive at a time, and not two at the same time.
